## CROSSCUTTING ON KIELHOFFER GROUP

## GOLD REEF PROPERTY LOOKING BETTER AT DEPTH OF 100 FEET.

The group of claims at Gold Reef, owned and under development by Charles Kielhofer and Claude Marvin, has reached the point where lateral work is about to begin to carry on exploration. The shaft is down to the 150-foot point, where drifting will start. The partners are well satisfied with the showing so far, as the shaft samples \$11.40 with the values in gold, with a fine showing of talc, the presence proving the permanency of gold. The which is regarded as a sure sign general formation in the Gold Reef district is an andesite and rhyolite closely resembling the Cripple Creek bird's eye porphyry. The talc gives pinnings of about an inch of gold around the pan and assays go from \$11 to \$35.

The new district is well thought of by all mining men who have visited the new hole sunk by Mr. Kielhofer and associates, who will thoroughly prospect their group, both in sinking and in prospecting lateral work.

## PERSHING MADE FULL GENERAL

## REVIVAL OF HIGHEST MILITARY GRADE FOR ARMY IN FRANCE.

(By Associated Press.)  
WASHINGTON, Oct. 2.—Revival of the grade of full generalship is announced by the war department to provide suitable rank for Major General John J. Pershing, commanding the American expeditionary forces in France.

Secretary Baker already has submitted the department's program, which includes provision for the title of general to be held by the officer serving as chief of staff and the making of several lieutenant generals to command corps under General Pershing, to the senate military committee, and that legislation carrying it into effect is to be pressed for prompt passage when congress reconvenes in December.

But four American army officers have borne the title of general—Washington, Grant, Sherman and Sheridan—and only a few have been lieutenant generals. Since General Sheridan died, in 1888, the rank of general has been extinct. No provision for a lieutenant general on the active list has been made since Lieutenant General John C. Bates retired in 1906, though there are three officers of that grade now on the retired list—General Nelson A. Miles, General Samuel B. M. Young and General Bates.

## TRAINING CAMPS FOR ENLISTED MEN

## CHANCES GIVEN PRIVATES OF ALL THREE ARMIES TO BE ADVANCED.

(By Associated Press.)  
WASHINGTON, Oct. 2.—A third series of officers' training camps to open January 5 and run until April 5, primarily for the education of enlisted men of the regular army, national guard and national army for commissions in addition to 2,900 graduates or under graduates from 93 specified schools and colleges will be admitted.

A training camp will be established in each of the divisions, with additional camps at the Philippines, Panama, Hawaii, Fort Bliss, Fort Sam Houston and Chickamauga.

## LOUISE DILWORTH IMPROVING AT CLAREMONT SEMINARY

Superintendent Dilworth of the public schools received a wire today from Mrs. Dilworth, stating that their daughter, Louise, was showing improvement after an attack of typhoid fever. When the young lady left Tonopah she showed no indications of illness and passed examination and was admitted to Claremont. It was after she took up her studies that the disease developed and Mrs. Dilworth immediately responded to a call by leaving here last Sunday, arriving at the patient's bedside yesterday.

## THREATENED WITH DEATH.

## SENATOR PITTMAN EXPLAINS SILVER

Following is a message from Key Pittman, explaining the silver situation from the Washington point of view:

"In my best opinion the sudden fall in the price of silver is not due directly to the embargo placed upon gold and silver bullion and coins by the proclamation of the president of September 7. A misunderstanding of either, or both, the provision and the effect of an embargo may have caused a panicky condition which resulted in bearing the market. The embargo proclamation expressly provides that application may be made to ship gold or silver bullion or coins out of the United States. Application is being to the federal reserve board at Washington. In no case has an application to ship bullion to Japan, China or other neutral or friendly countries been denied, although hundreds of such applications have been acted upon. The chief object of the embargo is to protect our gold reserves and there is no intention to prevent shipment of silver to friendly or neutral countries. It is the opinion of some statisticians in touch with the situation that the embargo will increase the use of silver, particularly in the East."

## FINNISH PEASANTS AGAINST SOCIALISM

(By Associated Press.)  
PETROGRAD, Monday, Oct. 1.—The Helsinki correspondent of the Bourne Gazette says the Socialists of Finland are losing hope of carrying the election for the new landtag, which began today. It is said the peasants are opposing the Socialists. Governor General Nekrasoff of Finland, in a report to Premier Kerensky, says the meeting of the old landtag, which was held in defiance of the governor's prohibition, was conducted by the Socialists and was not representative of the people.

(By Associated Press.)  
BERLIN, Oct. 2.—The Germans yesterday captured a section of French trenches 1,200 yards wide in the Verdun region.

## AMUSEMENTS

## MARY PICKFORD TODAY.

The attraction at the Butler today will be Mary Pickford's new Artcraft picture, "A Romance of the Redwoods." This production was staged under the personal direction of Cecil B. De Mille, who also wrote the story in collaboration with Jennie McPherson. Mr. De Mille, it will be remembered, is the producer of "Joan the Woman," the famous cinema spectacle concerning the Maid of Orleans. The art of Mary Pickford, the super-star, combined with that of Mr. De Mille, the producing genius, means a new standard of excellence on the screen. In direct contrast to her previous triumph, "A Poor Little Rich Girl," Miss Pickford's newest vehicle presents a red-blooded story of the West, replete with dramatic situations, as well as incidents of typical Pickford charm.

Tomorrow, the second release of the local Tonopah pictures showing the second quota of Tonopah boys leaving for the training quarters will be shown. This picture will also include scenes of the different lodges formed in the long procession en route to the depot.

## MASSSED ATTACK BY SUBMARINES

## WESTWEGO FURNISHES DETAILS OF A DOUBLE TRAGEDY.

(By Associated Press.)

AN ATLANTIC PORT, Oct. 2.—The American tank steamer Westwego, which figured in a navy department report September 11, as reporting from Paris on September 8 a "massed attack by six submarines" on a convoy of merchant ships, in which two ships and one submarine were sunk, arrived here yesterday from an European port. The Westwego's officers, in describing the attack, spoke of the loss of two ships, but did not mention the sinking of the submarine.

The officers said that submarines followed the merchant vessels during the daytime and at nightfall attacked the fleet in the rear, which was not strongly guarded at the time, and torpedoed the unprotected ships.

The lost ships were probably the Delphi C and the Middlesex, it was said when the report was first made public.

R. 50 per cent, for which the members feel very grateful indeed.

## GERMANS GROWING

(Continued from Page One.)

General Petain's armies also again have been forced to withstand, and successfully, vicious attacks from troops of the German crown prince, especially near Craonne and Beaumont and between hill 344 and Samogneux. Near hill 344 the Germans entered a French position, which later was recaptured in a counter-attack.

On the northern front in Russia, in the region south of Riga, the Russians are keeping up their offensive against the Germans and have beaten back the enemy for a distance of one mile south of the Kronenberg-Spital-Groundul sector. Quiet still prevails on the eastern front farther south and in Galicia and Rumania.

In Mesopotamia the British victory over the Turks at Ramala, west of Bagdad, was greater than at first reported. In addition to capturing the town, nearly 4,000 Turks were made prisoner and large numbers of guns and quantities of war stores were captured. Moreover, heavy casualties were inflicted on the Ottomans.

British and French airmen are continuing their raids against German positions behind the lines and the French aviators are carrying on further reprisals against German cities and towns for the bombardment of open French settlements. Large quantities of explosives have been dropped by French airmen on Stuttgart, Frankfurt-on-Main, Coblenz and Treves, while in conjunction with British aviators, railway stations, airdromes, munition depots and military encampments have been effectively bombed.
